

# FRANSCHHOEK

## *artisan food route*

The term artisanal refers to anything that is hand-made or handcrafted in the style of an artisan, or skilled craftsman. Artisanal foods are of high-quality, produced in a non-industrial, traditional, small-scale manner. Artisan producers understand and respect the raw materials with which they work. They know where these materials come from and what is particularly good about them. Enjoy the products on the Franschhoek Artisan Food Route!
